SYNTHETIC PERSONA FOR DEMO - NOT A REAL PERSON.

Kavitha - Data Entry Clerk, Johor

Summary: Data entry clerk with 6 years at a freight forwarding company (Contoh Logistik Sdn Bhd, fictional). Management plans to introduce AI document capture for delivery orders and customs forms, which covers most of my current work.

Experience:
- Enter shipment, delivery order and customs declaration data into the company database and the warehouse system.
- Verify data against source documents and correct mismatches before daily cut-off.
- Digitise documents with a scanner and optical character recognition software, then file documents in the shared drive.
- Maintain logistics databases of customers, consignees and freight rates.
- Use spreadsheets software to prepare daily shipment summaries for the operations supervisor.
- Keep task records and track backlog during peak season.

Education: SPM; certificate in office administration.
Languages: Tamil, Malay, English.
